Additional Features: The software allows you to customize your lead and capture forms, as well as pre-fill their details into forms and e-mails. This means less time spent on data entry. You can use campaigns to automatically convert leads and capture leads on your website. Campaigns can be as simple as generating a "submit" form and an email form, or as complex as a full sales funnel. For each campaign, you can set a subject line, the greeting that is displayed to your visitor, the text that is displayed in the email, and even the images and videos that you include in the email. For each campaign, you can include a sign-up form, or send the visitor to a thank you page for the information you require. You can choose to send an email to all of your leads, only to your best leads, or send to the first 10 or 20 leads that are generated for you. The software allows 82157476af
